

ICT Revision - IF Statements

When using a IF sum, go to the formulas tab and chose the drop down 'logical' this will then give you an option of about 7 different logical formulas, you will need to choose IF.

After clicking on the IF option, a 'functions arguments' box will appear on your screen. You will need to write in the first box, comparing the profit cell with whatever value you have been given. This will show you if a profit has been made or not. In the next to boxes you will need to write 'YES' and 'NO'. after clicking OK wither YES or NO will appear in the box next to profit.
