

Jobs - tasks

1. List the three types of job
2. For each type of job, use a page in your book to:
 - a. Write a definition of the job type
 - b. Create a mind map for the job
 - The central hub should be the job type
 - The main nodes should be the specific jobs you need to know about
 - The sub nodes should be information about what the specific job does and the production stage it is done in
