

# Structure Charts

Structure Charts are a **pre-production document**

They are created during the **planning stage** of a product's development

They are **diagrams** which plan the **pages needed** and how they link together for a **multi-page product** such as website or interactive multimedia project

# Structure Charts

A **structure chart** to show which pages are needed and how they link together can be helpful when designing multi-page products such as websites or interactive media products
