

Wireframe layouts

Wireframe layouts are planning documents

They show the **layout** and **content** for the pages of a multi-page product, such as an IDMP or a website

Wireframe layouts

You have been provided with a wireframe layout for the homepage of your IDMP

You **must** use this to produce the homepage

You will need to produce wireframe layouts for all the other pages of your IDMP

Homepage wireframe

Title bar

Navigation buttons

Brief "welcome to" text

Title image – should be the same on each page

Map showing location

Text sizes, colours and fonts must be **consistent** across every page of the IDMP. Background colours should also be consistent

Other pages

You need to produce wireframes for each of the other pages to show what they will look like and where buttons will link to

History page

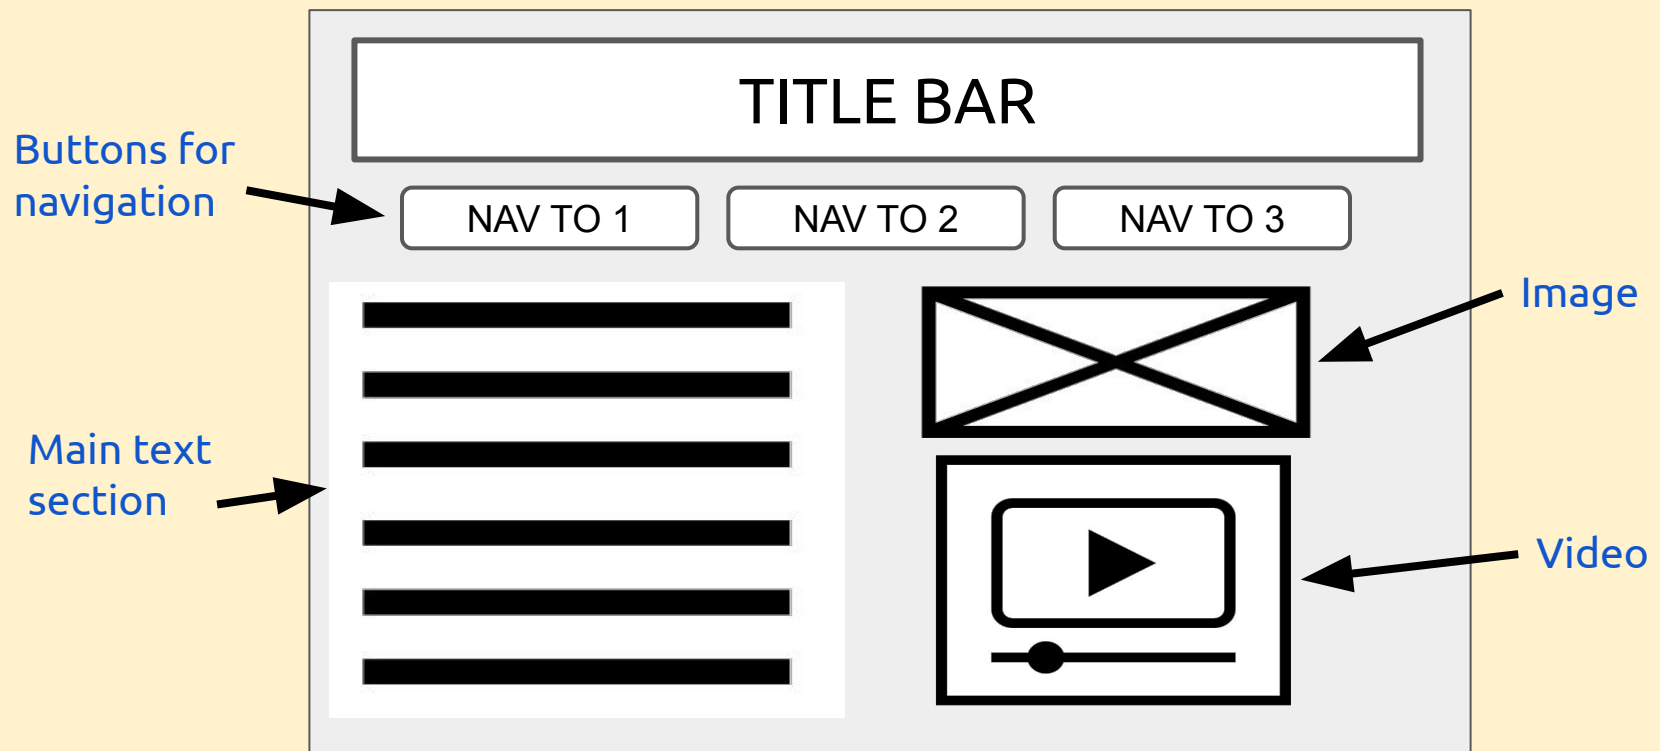

Things to do

Detail on a
thing to do

Video

Wireframe layouts

Wireframe layouts use standard symbols:

Labels and annotations can be used to make content and layout ideas clear
