

Filmora – using audio

Add audio in the **Media** tab and drag it into the audio track **below** the video

Trim audio as needed by dragging in from either end

Edit audio using the right sidebar
Change the volume level
Fade in and out

Filmora – remove audio

If a video already has audio on it, you might need to remove it

This is a two stage process:

1. **Right click** on the video track > **Detach Audio**
2. Find the audio track. **Click** on it and press the **Delete** key to remove it
