

New image setup

1. Set the **primary colour mode** to **RGB** – this makes using colour easier
2. Set the **height** and **width** – often 200mm by 200mm
Make sure you change the units to millimetres
3. Change the **resolution** to 300 dpi

The image shows a 'New image setup' dialog box with the following settings:

- General**
 - Name: Untitled-1
 - Preset: Custom
 - Number of pages: 1
 - Primary color mode: RGB (highlighted with a red box)
- Dimensions**
 - Page size: Custom
 - Width: 200.0 mm (highlighted with a red box)
 - Height: 200.0 mm (highlighted with a red box)
 - Resolution: 300 dpi (highlighted with a red box)
