

Using Copilot and Google AI

Copilot is Microsoft's built in AI assistant

To use it for research you need to:

1. Open the **Microsoft Edge** web browser
2. At the **top right** click the Copilot button (it says Chat by it)
3. Type your question in the pane that appears on the right

You must use Edge to use Copilot

Using Copilot and Google AI

Google AI is built in to Google search and will usually appear when you search a question

1. Open the **Google Chrome** web browser
2. Go to the **Google search homepage**
3. Type your question as normal
4. Use the **AI Overview** at the top – it will expand

Using Copilot and Google AI

AI Overview

Russia is by far the biggest country in Europe by both area and population, with its European portion covering approximately 3.95 million square kilometers. While much of its land lies in Asia, its western part makes it the largest country on the continent, covering nearly 40% of Europe's total land area. [WorldAtlas +2](#)

Key Details Regarding Size:

- **Largest Country: Russia** (European part: ≈ 3.95 million km^2)
- **Second Largest: Ukraine** (603,000 km^2)
- **Third Largest: France** (643,801 km^2)
