

# Responsible AI use poster

Create a poster for use in a high school or college

The poster should highlight **at least three things** that people who use AI should do to make their use of AI **responsible**

# Responsible AI use poster

Your poster could be a **paper poster** – in which case print it in black and white

Or it could be a **digital poster**

A digital poster will have at least four slides and be timed to run automatically on screens

If you create a digital poster it will need to be shared
