

# Computer networks

## Task 2:

Create a PowerPoint presentation to introduce networks

- Slide 1 - title slide
- Slide 2 - definition of computer network and examples of where they are used
- Slide 3 - differences between wired and wireless networks
- Slide 4 - benefits of using networks
- Slide 5 - network diagram (see next slide)

# Computer networks

## Slide 5:

Use the icons provided to create a network diagram to show a network that has:

- 10 computers
- A hub
- A file server
- A printer
- A router connected to the internet

Use the example diagrams to see what to do
