

Ducks - Order of Work

1. Download the image - rename it and put it in a folder
2. Open the image in Photoshop
3. Crop it - square ideally
4. Remove the background
5. **Export** as a PNG
6. **Recolour** the image and **export** each time - aim for 10 - 12 ducks of different colours
7. Build the **frame animation**
8. What can you add? Reverse a duck? Different sized ducks? A word in the middle? (QUACK perhaps?)
