

Jobs for today

1. Make sure your gallery is complete - with words on each slide (see the next slide for an example)
2. Are there any jobs that need finishing?
 - a. horse in motion
 - b. flashing ducks (different colours)
 - c. moving duck
 - d. fading duck
 - e. growing duck
3. Pick out a challenge

Jobs for today

Think about the layout of your gallery. Make it attractive but also make sure it's clear and easy to see what you did

Horse in Motion

This is the horse gif I made. It is made up of 11 single images.

The images were loaded using a script and then the layers used to build the GIF. I had to remove the standing horse in the set of images.

To start with it went backwards. I had to reverse it to make it go forwards.
