

Quiz Program

Make part of a text-only quiz game:

- use only text
- written in Python - a text-based programming language
- the player has to answer a series of questions (5 or more)
- use a mix of multiple choice and text answers
- the quiz must keep score
- include use of sequence and selection

Quiz Program

Example multiple choice question:

What is the capital of France?

- A. Lyon
- B. Paris
- C. London
- D. F

Example text question:

How many stations are there on the London Underground network?
