

LO2 - all jobs to do

1. Write up a section on the client's requirements
2. Visual style and composition write up
Create a mind map at some point in LO2
3. Mood Board
4. Audience requirements written up
5. Visualisation diagram
6. Assets and resources lists
7. Legal requirements section

You need to include all of these on your work plan for the planning stage, along with any research time

LO3 - all jobs to do

Asset development jobs:

1. Source images (copyright free)
2. Edit images (crop, resize, transparent, change colours etc...)
3. Create any images (e.g. logo - maybe using Illustrator)
4. Write text for blurb etc...

Making:

1. Create template for book cover (adding safety lines?)
2. Add images to book cover
3. Add text
4. Check, print and review - make changes as needed
5. **Evidence work**
