

Using Mind Mup

Mind mup can be used to create digital mind maps.

Go to <https://www.mindmup.com>

Press the Create a Free Map button

Using Mind Mup

1. Start by editing the central hub by double clicking

2. Then insert more nodes as child nodes. Keep clicking back on the node you want the new node to come out of. You can always undo!

Press Space or double-click to edit

3. Download your finished work as an image (JPG or PNG is best). Or screenshot it
