Travel Blog Website

You been asked to make a website for a travel blogger

The website will let the blogger write about the places they have travelled

You need to make **5 pages** to start the website off

Travel Blog Website

The pages will be:

- homepage.html
- nz.html - a page about New Zealand
- aus.html - a page about Australia
- paris.html - a page about Paris
- about.html - a page about the blogger

Travel Blog Website

Here's a **wireframe** diagram for the website:

<div class="header">

<div class="navigation">

<div class="mailbox">

<div class="footer">
