

Record Company logo

The record company which will release the CD need a logo made.

The name of the company is Iguana Records

They want a simple logo which will go on every CD they produce. It just needs to be a black record with the word Iguana across it in “a cool rock n roll font or something”.

Record Company logo

The logo needs to:

- use a round, black record as the background
- have the word Iguana across it
- use a suitable font and colour for the text
- be produced in Illustrator as a vector graphic
- be exported as a PNG so that it can be used

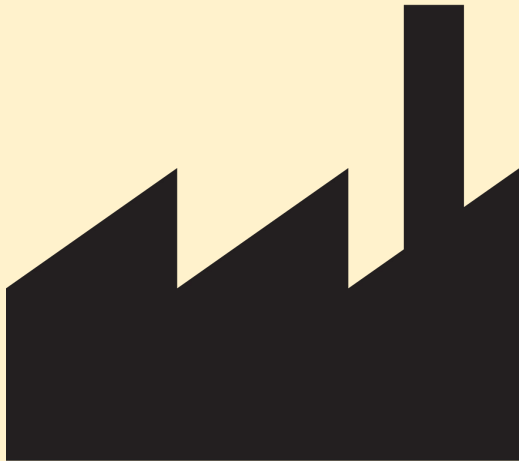

Record company logo

Make the logo. Add it to the back of the CD cover.
