

# TRAP homepage content

## Tropical Rainforest Action Group

Home - Golden Poison Frog - African Elephant - Bengal Tiger

Welcome to the TRAP website

We teach people about tropical rainforests and the species that live in them

Explore our site and find out more about what we do

Content for New div Tag Goes Here

These are the words you're looking for on the homepage.

They can be tricky to get laid out right - see the next slide for a tip...

# TRAP homepage content

```
1 |!doctype html>
2 ▼ <html>
3 ▼ <head>
4   <meta charset="utf-8">
5   <title>Homepage</title>
6 </head>
7
8 ▼ <body>
9   <h1>Tropical Rainforest Action Group</h1>
10  <div>Home - Golden Poison Frog - African Elephant - Bengal Tiger</div>
11 ▼ <div>
12   <p>Welcome to the TRAP website</p>
13   <p>We teach people about tropical rainforests and the species that live in them</p>
14   <p>Explore our site and find out more about what we do</p>
15 </div>
16 <div>Content for New div Tag Goes Here</div>
17 </body>
18 </html>
19
```

If you're having problems getting the layout right, use the code window at the bottom and edit the raw HTML. This is often easier to do if there's a problem

# TRAP homepage content

```
11 ▼ <div>  
12     <p>Welcome to the TRAP website</p>  
13     <p>&nbsp; We teach people about tropi  
14     <p>&nbsp; Explore our site and find o  
15 </div>
```

If you see the **&nbsp;** code you can just delete it from the HTML

**&nbsp;** adds a **non-breaking space** to the text. Basically a press of the space bar. Dreamweaver will sometimes add one even when you don't really want it

Again, it can be easier to remove this from the HTML window at the bottom
